

VANCO PAYMENT SOLUTIONS

Give by Kiosk

Give by Kiosk puts the power of kiosk giving into a small, portable unit that can be easily moved to different locations to serve a variety of purposes – collecting tithes and offerings at services or special events. Churches can add custom logos and messages to ensure that donors feel a connection with the church.

Most people don't carry cash or a checkbook today, so Give by Kiosk is an easy, convenient way for members and visitors to contribute to weekly offerings and special appeals – donations your church may not otherwise receive.

Easy to use

Give by Kiosk empowers self-service giving. Simple screens make donating quick and easy – donors just swipe a credit or debit card, choose the fund they want to give to, and enter the amount they want to give. The kiosk can print or email a receipt for tax purposes and print a donation slip for the collection basket.

Secure

An encrypted card reader ensures secure credit/debit card transactions so donors and churches have peace of mind that personal information won't be compromised.

Seamless integration, automatic reporting

Give by Kiosk simplifies church reporting and recordkeeping for Vanco clients. Kiosk donations appear on your standard Vanco reports. Plus, Vanco integrates with many of the most popular software systems. If you already import Vanco transactions into your church management software, you'll be able to import kiosk donations as well.

Simple implementation

Your kiosk comes pre-assembled with the iPad already configured with your church's branding, so there's no assembly or complicated set-up required. When your kiosk arrives, plug it in, connect to your Wi-Fi, and you're ready to get started.

4X the demand

Our recent survey of more than 1,000 U.S. churchgoers found that only 6 percent said their churches offered kiosk giving, but nearly a quarter of those surveyed said they would prefer to donate through a kiosk.

Portable, lightweight and easy to secure

Vanco's Give by Kiosk weighs just 20 pounds, so it's easy to pick up and move where it's needed, or to safely store in an office when not in use. If your church wants kiosks in fixed locations, you can easily take steps to ensure that no one walks away with it by securing it to a table or another fixed object.

The iPad is protected in a locked enclosure, so churches need not be concerned that someone can remove it from the kiosk. And it can also be password protected to ensure that its use is limited to the Give by Kiosk app. Churches don't have to worry that unattended kiosks can be used for unauthorized purposes such as gaming or sending texts.

Kiosk Dimensions

- **Height:** 15 inches
- **Width:** 13 inches
- **Depth:** 8 inches
- **iPad Air screen:** 9.7 inches (diagonal)

All-inclusive pricing

Give by Kiosk comes with everything you need to start accepting donations. The one-time equipment fee and monthly service fee per kiosk includes a pre-configured iPad Air with secure enclosure, the portable kiosk base, an encrypted card reader, a roll of thermal paper, standard shipping and handling charges plus Vanco's outstanding service and support.
